

The All Trail II tires are specifically designed for use on hard surface conditions. The low, wide profile reduces soft wallowing chassis roll commonly experienced with other tires while its uniquely tight tread pattern offers a smooth ride experience. The specially formulated compound delivers durable extended tire life with responsive, predictable, and level handling on pavement, concrete, and hard-packed soil. Made in the USA.

Best Used For: ATV's, Hard Pack, Intermediate Surfaces, SxS, Utility Vehicles

Load Range: C
Sidewall: BW
Tread Depth: 16
Approved Rim Width: 9
Section Width In: 10.9
Overall Diameter: 23.5
Max Load (Single): 1230
Weight: 19.9
Road Hazard: N

Benefits & Features

- Tightly grooved tread design for stability on hard-packed terrain
- Low, wide profile for reduced soft wallowing chassis roll
- Extended-wear tread compound
- Intermediate to hard surfaces
